### **Half price firewall offer from Zen Internet**

05 June 2006: Zen Internet, a multi-award winning Internet Service Provider (ISP), has today announced details of a half-price firewall promotion aimed at encouraging businesses to upgrade to the latest Unified Threat Management security platform.

Zen Internet are offering customers 50% off Fortinet's award-winning range of Unified Threat Management (UTM) firewalls when they trade in an existing firewall platform for a Zen managed security solution. This offer can save customers over £3,000.

As well as the initial financial savings on the Fortinet hardware, customers will also benefit from Zen's management service which includes network security consultation, 24x7 network monitoring, regular firewall activity reports and on-going technical support and firewall maintenance.

Justin Barritt, Product Manager at Zen Internet commented: "The benefits of outsourcing to a network security specialist are obvious, however many businesses struggle with the unavoidable upfront costs. With this half-price firewall trade-in offer we are shaving hundreds, or even thousands of pounds off these upfront costs, thereby making it easier for customers to take advantage of our complete Managed Security service."

This offer is only available until 30<sup>th</sup> June and customers are reminded that the offer is only available in conjunction with a Zen managed security service agreement.

### **About Zen Internet:**

Established in 1995, and one of the first ISPs in the UK, Zen Internet provides a full range of high quality services to the business and home user, from the latest in high speed DSL Broadband Internet access and complete hosting packages to state of the art Web site design. Zen Internet won three awards in the 2006 ISPA's (Internet Services Providers' Association) in the categories of Best Uncontended Service, Best Heavy Business Broadband and Best Business ISP. These followed an ISPA Best Light Business Broadband award in 2005 and the PC Pro Best ISP Broadband awards in 2004 and 2005.
