

Award-Winning Fibre and Phone Packages for Business

Reliable, affordable and award-winning Fibre Optic Broadband and Phone Packages

Overview

For the highest quality business connectivity, Zen Internet is the smart choice with fast, reliable and affordable Fibre Optic Broadband, with download speeds of “up to 76Mbps” and upload speeds of “up to 19Mbps”. Anything is possible with a fast and stable connection that can increase business productivity, reduce costs and unlock the full potential of Cloud computing, and other high bandwidth services.

“As a digital business of 12 years, working in the heart of Manchester the second biggest cluster of digital businesses in Europe, Zen’s Fibre Optic Broadband is the first time we’ve had effective broadband. It’s making a massive difference in how and we do things.”

Gez O’Brien, Director,
StarDotStar

Free from interruption and limits

Zen can accelerate your business internet and give you the freedom to enjoy uncapped, uninterrupted and unrestricted broadband. Fibre Optic Broadband provides enough speed and bandwidth to comfortably meet the demands of multiple users on a single connection. Whether uploading or downloading large media files, streaming video content or accessing hosted applications in the Cloud, everyone can benefit from services that often reach 10x the speeds previously available on a traditional broadband service. Even better, we don’t artificially slow down your connection, whenever and however you use it. In contrast to most other ISPs you’ll get the very best speed the network can support. Plus, you can keep everything connected with a Zen phone line and benefit from a single supplier you know you can trust.

Key Benefits

- Award-winning Customer Service and Technical Support
- Simple, easy to understand tariffs with no hidden charges
- No small print, clearly defined allowances and fully transparent information

Fibre to the Premises (FTTP) Services also available

Our mission is to provide the best ISP service in the UK.

Richard Tang,
Managing Director

That’s Zen thinking

Product Guide

Free from rising costs and unnecessary extras

We offer straight-forward contracts that are shorter than many competitors and give you the freedom to use and pay for your internet however you wish. There's no need to commit to long contracts with unnecessary added extras, just get connected with the high grade broadband optimised for business, with a free static IP address (charged at £5 per month by some competitors). For businesses that need additional assurance that their broadband service is available when they need it, we offer a premium grade Unlimited Fibre Office service with speed and availability SLAs and a 7-hour repair service. Plus, our phone services offer some of the best call rates, with per second billing and no call connection fees.

Prices exclude VAT. All contracts are for a 12 month period
 *See SLA for further details

Standalone Fibre Optic Broadband services

If you only want a Fibre Broadband service without taking Zen line rental simply add a £4.50 (excl. VAT) charge to the packaged Broadband cost and ignore the line rental charge. A phone service can be added at a later date to benefit from the best possible price.
